

# WARM WOODS

explore trending surfaces throughout the home

# APPLICATIONS

## THE KITCHEN

The kitchen has always been the heart of the home. Create a warm and welcoming atmosphere with the natural beauty of wood from VT CenterPointe.

## THE PANTRY

Meal prepping has never been easier, or more stylish. Feel relaxed and at-ease creating your next culinary masterpiece with the help from VT CenterPointe.

## HOME OFFICE

Work-from-home or study-from-home in a space that's truly your own. The rich, warm wood provides a serene escape creating a nurturing atmosphere allowing you to focus on business.

# OPTIONS

## UNFINISHED SLABS

Greene Street Wholesale offers unfinished slabs in ready-to-ship sizes—straight off the truck to your shop. No fabrication is done, so you receive the material in raw form. Available in Hevea and Acacia, with sizes:

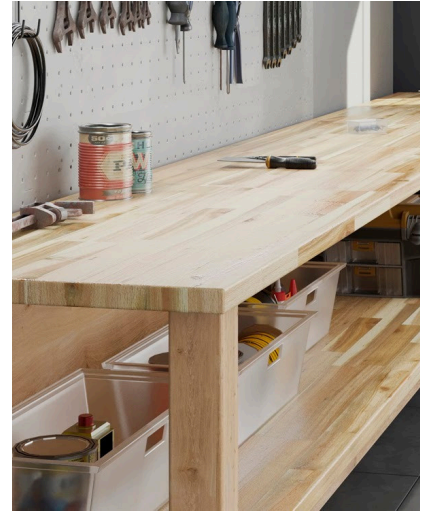

- 25" x 122"
- 25" x 50"
- 4" x 98"
- 25" x 98"
- 39" x 74"

## UNFINISHED

Want more flexibility in your projects—even if you don't have the fabrication tools? With Greene Street Wholesale's CenterPointe line, you have the option for your order to arrive pre-fabricated, but unfinished, giving you full control to stain or finish it exactly the way your customer wants.

**\*Additional sanding may be needed**

## FINISHED

Want that natural wood aesthetic without doing the finishing yourself? GSW's clear finish option delivers. We cut your countertops to size and ship them finished with a satin polycrylic coating, ready for installation.

## STAINED AND FINISHED

Want something besides natural wood? GSW offers several stained and finished options. Pick from Red Mahogany, Rustic Brown, Cherry, or even Weathered for a one-of-a-kind butcher-block style. Each countertop is sealed with a satin polycrylic finish and arrives ready to install.

## LIVE EDGE SLABS

Our live edge tops arrive pre-finished in a food-safe varnish on Acacia, giving a beautiful rustic touch with modern utility. For standard-depth tops, the live edge is offered on one side; for deeper island tops, it's available on both sides.

Available slab sizes:

- 25½" x 72"
- 25½" x 96"
- 39" x 74"

## FLOATING SHELVES

Add functional style to any room with CenterPointe floating shelves. This 3-piece shelving kit arrives prefinished and ready to install in your home or office. The floating hardware includes pre-drilled holes and a heavy-duty mounting bracket for easy setup. Made in Acacia, CenterPointe shelves pair beautifully with VT's CenterPointe countertops—creating a unified, coordinated look.

Choose between two kits:

- 2-pack: two shelves, each 72" x 9.5" x 1.5"
- 3-pack: one 48" x 9.5" x 1.5" and two 24" x 9.5" x 1.5"

# FINISH AND STAIN OPTIONS

Acacia - Unfinished

Hevea - Unfinished

Acacia - Finished

Hevea - Finished

Acacia - Weathered

Acacia - Weathered

Crystal-clear topcoat that shields surfaces from scratches, scuffs, and blemishes. Applied to all our finished and stained tops, it preserves both beauty and durability.

Maintain your oiled wood surfaces with Emmet's Elixir, a food-safe conditioner that helps suppress bacterial growth and preserves a lifetime of performance. Do not use on polycrylic finished tops.

Hevea - Cherry

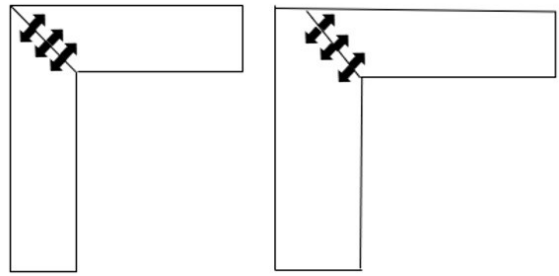

Prefer to apply your own finish? Try Emmet's Good Stuff — a simple-to-use, food-safe urethane gel. It goes on with a cloth, dries to a clear satin, and comes in quart and pint sizes.

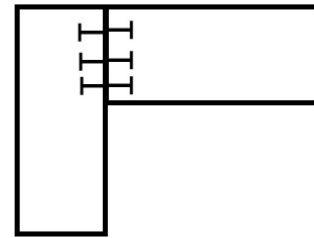

### Miter Assembly (Standard)

Corners are joined at 45° angles to form an L shape. Greene Street can assemble with dowel rods, or ship parts with bolt holes and bolts for field assembly (short leg up to 84"). Always verify countertop fits into the space before installing.

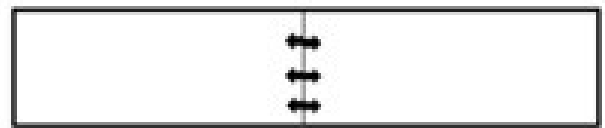

### Miter Assembly (Butt)

One slab's end meets another slab's side (no angled cut). Useful when slab lengths don't span an entire run.

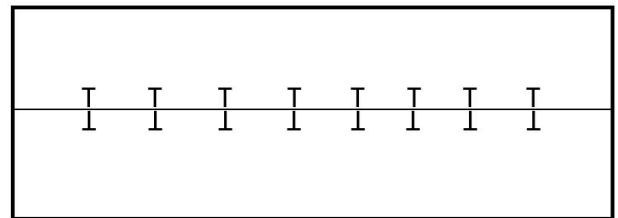

### Butt Splice Assembly

Connects two slabs end-to-end to cover lengths beyond a single slab (up to 168"). Assembled units use dowel rods; for runs >14' or field-assembly cases, bolt routing is used and bolts supplied.

### Depth Splice Assembly

Joins two slabs front-to-back to expand depth (for islands, etc.). Helps the seam blend with grain flow. Max depth splice: 50".

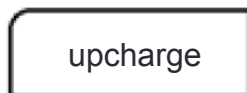

### Sinks:

Greene Street Wholesale can cut sink openings for top mount, undermount, or farmhouse sinks to your exact specifications.

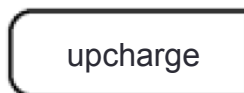

- Important: undermount sinks that expose the edge grain will void the warranty.
- We'll need your sink's model number and cut-out location.
- For undermount and farmhouse sinks, please send the template to our warehouse so we can ensure proper fit and installation.
