

Acacia - Natural - Clear Finish

Hevea - Natural - Clear Finish

Acacia - Stained - Rustic Brown

Hevea - Stained - Cherry

Acacia - Stained - Red Mahogany

Acacia - Stained - Weathered

The wood species samples contained herein are a general representation of the finished product. Just as no two trees are alike, no two pieces of wood are alike in the construction of VTI CenterPointe slabs. Mineral marks, limbs, knots, and growing conditions all lend to the unique character and originality of wood. Thus every butcherblock top has distinctive grain patterns, character marks and color variations. These features are the purest expression of nature.
