

The Ultimate Water-Proof Surface

We went back to the drawing board and created the ultimate surface for when water is ever-present. Instead of tile and grout, we developed a single panel that's water-proof. Stylish. Simple to install. And ready for everything. It's the Wetwall Water-Proof Wall Panel System. And it's going to change everything.

WHY CHOOSE WETWALL?

It's effortless to install and customize.

Wetwall is installed on-site, and does not require any special or dedicated tooling. With simple tongue-and-groove installation, the average time to install is as little as 2.5 hours.

It's durable.

Living with the Wetwall panel is easy, thanks to AEON™ Scratch & Scuff-Resistant Technology. AEON is proven to outperform other shower panels with similar finishes.

It's dependable.

Because it's grout-free, it's simple to maintain and clean. Warm soapy water and a sponge is all that is needed for regular maintenance. Wetwall has no grout lines to clean, and is non-porous, so sealing is never required.

It's antimicrobial.

With antimicrobial protection built directly into the decorative surface, Wetwall is protected against odor-causing bacteria, mold, and mildew.

Create and customize your next space with Wetwall, the ultimate water-proof surface. To learn more, call your representative or visit www.Wetwall.com today.
