

SHOWER BASES

Whether you are contemplating a major bathroom remodel, or a simply tub to shower conversion, Samuel Müller's wide variety of shower bases offer varied colors, materials, styles and installation options which allow you to lay the foundation for a attractive, modern shower space.

The beauty of our shower base series lies in its diversity. Chances are we have the perfect shower base for you.

SMFL6032L Base

Samuel Müller offers end and center drain shower bases in three different materials: Sheet Molding Compound (SMC), Cast Solid Surface and Monterey Cultured Marble.

Samuel Müller features either traditional 2" - 3" thresholds or 1" flush thresholds for a modern look and a seamless transition from bathroom floor to shower base.

SMFZS6032C Base

SMFLU6032L Tub Replacement Base

If your plan is to replace an existing tub, our low profile tub replacement shower bases are designed for just that, matching up with the bathtubs drain location.

SHOWER BASES

SMC Shower Bases

Our SMC (Sheet Molding Compound) shower bases are innovative. Compression molded for precision radius and angles. Modern slip resistance with a stone look texture make it easy to clean as well as slip resistant. Up to 21% heavier than competitive bases.

SMC Trimslate with Adjustable Thresholds

Customizable trimslate shower bases with our unique adjustable depth threshold. Designed so the maximum depth can be adjusted by up to 2-1/2" without any trimming. Single, double and triple options available. Trimslate bases can also be customized in the field to fit your space.

SMFZST6032C
Single Adjustable Threshold

Base can be cut in the field with a conventional circular saw to fit the shower pocket. Can be trimmed up to 6" in width, or 2" in depth, away from the drain.

Pre-tiled genuine marble shower base. Shower bases comes totally pre-cut, and fitted with real marble tile in 3 unique designs. These bases have a special flexible epoxy grout and adhesive which provides for bacteria resistance, flexibility and long lasting durability.

The marble tile is pre-installed and carefully placed on our Tile Ready SMC sheet molding compound shower base. The modern, polished stainless steel drain cover includes a 2" PVC solvent-welded or flexible connection.

CAST SOLID SURFACE Shower Bases

Low-Profile, linear shower bases are constructed of compression cast, solid surface material. The material is super dense and consistent throughout the base. Easy to repair, soft to the touch, and features a gentle matte surface that will not support bacterial growth. Low 2" high single threshold. Concealed drain with removable, attractive curved drain cover.

The SMFSLB base is designed for tub replacement. The 8-1/2" drain center location provides a direct replacement for an existing bathtub. A simple, easy installation to convert a tub space into a 60" shower.
